THURSDAY.

GENERAL WARNER ON SILVER.

duce it here in full, knowing that all our ground. readers will peruse it with interest:

metals to which everybody could have recourse, without restriction, for money supply and for every money purpose. Both together constituted the money standard and obligations of every description were payable in coin of either money. Nor is there danger of any country having too much gold than gold in silver. The next half century are in any time constituted the money standard, but both together. Though coined separately, it was the mass of the whole, as much as if coined as a composite metal, that formed the coined as a composite metal, that formed the cal money standard and constituted the money f dual redemption for all obligations. The coinage of the two metals in the United

States was equally free and unlimited from the shmen; of the mint by the con of WASHINGTON, HAMILTON and JEFFERSON, in 1792, till silver was demonstized in 1873.

and as much contributed to form the money standard as the same quantity of gold. If this mass had been melted together and coined as a composite metal the means of payment and the effect on prices would have been no different from that produced by she mass of the two

netals coined separately.

But by the monetary revolution of 1873 gold nione was declared the standard and the sole

Mr. Leader, director of the mint, said in re-bity to a question when before the collars were his fame is not restricted to mittee of the House that silver dollars were his native country was proved by Salt Lake work for kept at parity with gold because of the faith the election of the poet as regent of Oxford and Salt Lake contracts for Denver contract that the government would always "redeem a University, an bonor rarely bestowed on a tractors, that is the Liberal policy.

kept at a parity with gold by being limited in least merit as a critic. He is equally at amount and made reocemance in good. On the most state of narrow basis of gold, too, the whole fabric of and the mysticism, tempered by mensura-bank credits is made to rest. This is the doction, of Dante; nor does his admiration of the contract to the contract of the con trine of the Republican party as expounded by the leaders. They, therefore, virtually approve the change in the standard made by the act of the change in the standard made by the change in the change in the change in the standard made by the change in the

contrast with this the position taken by payers and producers." Who can truthfully deay this? Was the change from gold and silver him an air which, to use one of his own exditions to gold alone—from a money volume of \$7,500. pressions, blows the mind clear. It is feed the people of the oid world, most of 600,000 to a volume of \$2,500,000,000 for the world delightfully fresh and tonic, with a certain whom have, in the past, drawn their sup--not an iniquitous alteration of the money saline shrewdness in it remind standard. The only thing that removes this it has come across the ocean." Thus weighed down with greater that crimes" is that it was done in ignorance (if it was altogether in ignorance), or as Mr. Ghorsenenk said at the money conference in 1876, "inadvertently." At any rate nobody has been hanged for this act and is mourn him who made this nation better, richer and prouder for his being.

And together with Lowell, George or that he will prove to be much of a factor of the act has been to increase 50 per cent. the has joined the silent majority beyond. It may even be doubted that has joined the silent majority beyond. It may even be doubted that has joined the silent majority beyond. as Mr. GHOESBERK said at the money conference value of gold, and, in effect is precisely the same as if the busbel measure, the yardstick means that he combined genius with courband weight had each been increased means that he combined genius with courband to percent, altering all contracts in that proportion. And what is more, as declared in the Democratic platform, the demonstration of cause a journalist like an actor never besupply of primary money operates to continu-simply of primary money operates to continu-his work in the present; but for all that it ally increase the value of gold, depress prices. was an active and subtle and powerful mind of all the farmers, the million or such a hamper industry and discourage enterprise." Is there any doubt of this? Can production and trade be successfully carried on with a money standard constantly increasing? Are the people of this country expected to submit for Jones be it said that he never shirked a Another condition essential to the success ever to such it justice? They most certainly fight for the right as he conceived it. In will not. "Oh." say the advocates of the single gold standard, "we want honest money." Is that an honest money. Is that an honest money is that an honest money is that an honest money is that an honest money. Is that an honest money is that an honest money. Is that an honest money is that an honest money. Is that any more an honest money is that any more an honest dollar that is all the time getting dearer? With a bank account of sufficient money. It is more than the most force that is all the time getting dearer? With a bank account of sufficient money. It is that any more an honest money. It is more than the most force that is all the time. Now every intelligent person knows that the service of his chosen profession, this it would be simply impossible to comparison the most force. The more than the most force that is all the time. Now every intelligent person knows that the most force that the tions to commodities, and preserves an even balance between debtor and creditor.

staple commodities are lower now than any time before in the century; lower even than in the '40s before the gold discoveries of California and Australia.

continued increase in the value of gold. In the presence of facts so patent, to talk about honest money," as if gold only was he

The pretotype of our dollar, the Spanish milled dollar, I vs been for 900 years a standard coin. It was the money unit of the colonies, and was made the standard coin by the Conti-The Democratic platform demands the 'reinstatement of the constitutional standard of both gold and silver with the equal right of

1.00 kick against the whole history of the party on this campaign fund he will be defeated and the c that for eighteen years one of the most important provisions of the constitution has been set did not respond with any sort of generosity, and do not even take the trouble to remember at the bidding of a foreign credit holding and some of them went so far as to say that

a thousand times. In the first place, under free coinage, the government does not buy sliver at all any more than it buys gold. It simply clee than hopeless. The price of wool has stamps it for the holder and the price of a bar gone down so much under the operation of the presumption is that the showing General A. J. Wanner, of Ohio, being of silver is the coins—the dollar pieces—that his bill that the sheep-owners have deserted saked for an explanation of the silver can be minted from it. There can be no differ blank in the Democratic platform of that like sheep-owners have deserted doctor does not remove the temptation to ence under tree coinage between the value of But there is another element in the busiblank in the Democratic platform of that said state, made answer through the editorial state, made answer through the editorial state, made answer through the editorial columns of the Cleveland Plain Dealer with the following letter. The article is such a actly \$10, because it will coin into exactly \$10, because it will coin into exactly \$10, and is therefore supposed clear statement of the case, and makes so pieces and there is no profit about it to anyplain the position of the two national parore. Hence to talk about profit to silver of plain the position of the two national parone. Hence to talk about profit to silver of the Republican party. The
ties on the silver question, that we reprominers is to try to shift the question onto false executive committee of the national For centuries throughout the world and through all the history of this country down to issay gold and silver were held to be allke money metals to which everybody could have recourse. Indeed, the world and issay the stability of the value of more is impossible, and without which there are the proposition of the prop

Canada is about ripe for annexation to the Republican party. Corruption and its mileage and help its Liberal friends in jobbery were never more flourishing in the carrying the Salt Lake elections, may have dominion than they are to-day. There is, however, still some distinction between the Political weather prophets who know the two countries. In Canada a cabinet min. signs of the times say this will be a hard The total quantity of coined money in the ster like Sir Hector Langevin resigns winter for supernumeries and cormorants. and 83,750,000,000 of gold, or both together, say deal, though he protest his innocence, while 57.300,000,000. This mass then constituted the real money standard. The silver part was as John Wanamaker continues in office under

TWO OBITUARIES.

interred with their bodies. money of final redemption. Thus at one strong the money standard was changed from a volume of them. For the last fifty years his lyre of \$1,250,000,000 for the world to one of \$2,750, was strung for the love of humanity. In this youth he was one of the anti-slavery ingredient they use with it. Butter Mr. Shelman and his party that, since 1873 ministrels and in his age his tune rang out silver and aliver notes or certificates are kept for purity and right. As a wit, a satirist, at a parity with gold by being redeemable in gold.

The Cincinnati Commercial Guzelle in a reminent rank among the foremost of his the peasants the same frugal board with an emineut rank among the foremost of his the peasants the same frugal board, with vel of Mechanical Perfection. Perfect Align cent issue said:

"Under our present system as adopted by the gold imagination and expression! Some of his worker ounce of silver that is produced at its walle in builton as measured by the gold imagination and expression! Some of his three classes, workmen, peasants and standard. Upon these certificates are issued. * * * These certificates are good
because they are endorsed by the government
and are always redeemable in gold coin if that
chould be demanded."
